

MOOG is a quoted US-owned worldwide manufacturer of precision motion control components and systems. With manufacturing facilities and sales offices in more than 20 countries, MOOG products and systems are found globally on a variety of industrial applications.

For the International Treasury Center of the Moog group located in Bettembourg, Luxembourg, we are presently looking for a:

Treasury Analyst (m/w)

YOUR RESPONSIBILITIES

Being part of the International Treasury Center of Moog (overseeing treasury activities for 50 subsidiaries in 20 countries across Europe, Asia/Pacific and Latin America) and reporting directly to the Director of International Treasury, you will assume the following responsibilities:

- Organize and perform day-to-day transactions of the Treasury Center and the group in-house bank (e.g. cash investments, foreign exchange, payments/funding, intercompany netting)
- Issue treasury reporting and perform various analyses
- Contribute to the development and implementation of various treasury/cash management initiatives throughout the group
- Contribute to the development and implementation of cash investments and risk management strategies
- Assist the Director of International Treasury in miscellaneous Treasury/Finance matters

YOUR QUALIFICATIONS

- University Degree in Finance, Accounting or Business Management
- Minimum of two years' experience in the field of Treasury/Finance/Cash Management, preferably in an international environment
- Good understanding of treasury tools and treasury software
- Team player, pro-active, good communication skills and able to work autonomously
- Computer literate
- Fluent in English, French and/or German is a plus

This position is temporary for a duration of 18 months.

Are you interested? In this case we look forward to receiving your online application.
